## SideTool Straw Crimper – The Ultimate in Efficiency!

# SideTool Straw Crimper for the Tractor or Skid Steer

The SideTool SCX Straw Crimper's discs can pivot left and right and up and down independently, leaving a well-secured, even mulch installation

Also available with Quick-Attach adapter for your skid steer!

When an SCX crimper disc hits an object, it floats over or pivots around it, while the other discs remain firmly engaged with the soil. The disc pivoting action also allows for smoother, tighter turns for faster installation.

All SideTool products and concepts are patented/pending. Engineered and manufactured in the USA.

### SideTool Straw Crimper – The Ultimate in Efficiency!

SideTool was awarded 2012 *Equipment Today's* Top 50 Products of the Year!

SideTool is recognized as the industry leader in attachment innovation. Providing a fresh new look at contractor solutions that increase efficiency and safety. The SideTool Advantage continues to provide product solutions that give today's contractor a competitive edge.

#### More on the SideTool Straw Crimper

SideTool's ALL NEW SCX Straw Crimper lets you say good-bye to poorly secured, uneven straw mulch installation due to rocks, roots, stumps and even sidewalks. Why? Because each SCX mulch crimper disc can pivot left and right and up and down independently from each other which is a big advantage over other straw crimpers. No other mulch crimper offers this time saving, quality installation feature.

When a conventional, single-shaft crimper hits a rock, the whole machine lifts up and can totally disengage the soil. Not so with the SCX straw crimper. When an SCX crimper disc hits an object, it floats over or pivots around it, while the other discs remain firmly engaged with the soil. The disc pivoting action also allows for smoother, tighter turns for faster installation.

These features along with the SCX's sturdy construction and ease of operation let you confidently and uniformly crimp straw- that will stay crimped- to keep soil in place and undisturbed... even in high winds or heavy rainfall!

#### SideTool SCX Straw Crimper Specifications

"A" Disc Spacing	"B" Overall Width	"C" Shipping Width	Empty Weight	Number of Discs
6" (15.2 cm)	76.5" (195 cm)	76.5" (195 cm)	1,580 lbs (717kg)	13
